## University Graduates Largest Class in Campus History

*This bachelor degree recipient proudly displays her diploma at last Saturday's Commencement. Her excitement was typical of the nearly 1,400 fellow graduates who walked in the university's 24th Commencement celebration.*

A record crowd of nearly 15,000 gathered on campus last Saturday to watch the university's largest graduating class receive diplomas as Cal State celebrated its 24th annual Commencement.

Keynote speaker, Arnold Garson, editor of the San Bernar-

dino County Sun newspaper, commented on the moral and ethical concerns in today's business world. "The walkways of the business and professional world that lie just around the corner from this graduation day are strewn with temptation."

*(continued on page 3)*

## Distinguished Alumna Named

Cal State's Alumni Association has chosen Cheryl A. Flowers as the distinguished alumna of 1990. She was recognized at last Saturday's Commencement ceremony.

Flowers holds a bachelor of arts degree in geography and an M.B.A. in operations management from Cal State. A resident of Mentone, CA, Flowers is employed by the Western Municipal Water District of Riverside County as manager of regional programs. She is actively involved in the coordination of several projects designed to manage and improve the water resources of the Santa Ana River Basin.

She is well-known in the water resources industry for her expertise in California environmental compliance

*Cheryl A. Flowers, distinguished alumna for 1990*

issues. For eight years, she served with private consulting firms preparing and managing numerous environmental and planning reports for various local governments including, the city and county of San Bernardino.

*(continued on page 8)*

## Construction Update

As reported in the last issue of the Friday Bulletin, a special groundbreaking ceremony for the new classroom/student services/faculty office complex held May 21 marked the beginning of a major construction phase for the university. The site for the campus' newest building is now being cleared, a construction trailer is on location and a fence surrounding the area is in place. Taylor Woodrow

Construction California, Ltd. is under contract to have the building completed within an 18-month period. According to Vice President Leonard Farwell (Administration & Finance), "We are pleased with the contractor and we expect them to do an excellent job." Farwell notes that Jon Regnier, who has supervised construction at CSU, Long Beach for 24

## New Recognition Program Honors Staff Employees

To express appreciation for the many contributions made by staff employees, university officials will launch a new, two-tiered Employee Recognition Program effective July 1 reports Dale West, director of personnel.

"Recognition is an important part of the employment setting," notes West. "As our campus continues to grow, we feel it's necessary to recognize those significant contributions that employees make to the university." Currently, 374 staff members are employed full-time at Cal State.

The first phase of the program is designed to recognize employees who have successfully completed an established probationary period. At the end of the probation period, staff members will receive an attractive lapel pin that they can wear with pride. Although management plan employees do not serve probationary periods, they may be awarded the CSUSB Employment Award Pin at the completion of one year of service.

The second phase of the program includes two awards to be presented at the annual convocation held each fall. Two recipients will receive an Outstanding Employee Award and two staff members will be recognized with the Performance Excellence Award beginning with the 1991 convocation.

Nominees for both awards must be permanent status employees working in a state position, must be a regular employee of the Foundation or Associated Students, Inc., work full-time during the year nominated and must have completed two or more years of service with Cal State.

Those nominated for the Outstanding Employee Award must display some of the following criteria: dedication to their position as measured by attendance, reliability and loyalty; expertise in job performance; assistance to others; service to the campus; positive relations with fellow employees, faculty and students; and participation in university and community activities.

Nominees of the Performance Excellence Award should be those individuals who have made a significant contribution to their department, division or the university. Such a contribution could include a specific project or idea that enhances productivity, efficiency or effectiveness.

In short, the Outstanding Employee Award is designed to recognize job performance on a consecutive daily basis, while the Performance Excellence Award honors a significant, specific contribution. Recipients will receive a plaque as well as another gift recognizing their accomplishments. Information regarding the nomination process will be provided in future issues of the Friday Bulletin.

## *(Construction . . . continued from page 1)*

years, is equally pleased with the firm. In a recent story in the Orange County Register, Regnier credits Taylor Woodrow as being one of the best two contractors he has ever seen and predicts that the firm will complete a \$10 million Business School project on the Long Beach campus approximately eight months ahead of schedule.

Another recognizable change on the campus this summer will be the addition of two modular laboratories and six new modular classrooms. The labs will be located between the existing modular classrooms and the concrete pedestrian pathway leading from the library to the Physical Education Building. The new modular classrooms will be housed between the library and Physical Education Building. These will be ready to accommodate students with the beginning of the fall quarter. "We do not have plans for any future modular buildings," notes Farwell.

In other construction news, working drawings for the expansion of the Student Union Building are slated to be completed by the end of July with the project going to bid during the first part of August. Revenue bonds sold through the Chancellor's Office will provide funding for this project. Actual construction is expected to begin in January, 1991 and is anticipated to take approximately 16 months to complete.

Working drawings for the new Business Administration & Information Sciences Building are expected to be started in mid-July with this project going to bid in the early spring of 1991. Construction on this new facility will take about 24 months. This project, funded by state revenue bonds, is anticipated to be finished by early spring, 1993.

The future of the Pfau Library renovation and expansion is contingent upon the passage of a \$450 million bond measure slated to appear on the November ballot. If approved, construction will start during the fall of 1991. Working drawings, already funded, will begin next year.

Funding for preliminary plans to expand the Physical Education Building and to build a new Visual Arts facility has been approved. Architectural plans for these two projects are anticipated to be complete by January, 1991 with working drawings to be finished by fall, 1991. Like the library expansion, construction funding for these projects will rely on a November 1990 bond measure. If approved by the voters, construction may begin as early as the spring of 1992. It's anticipated that this dual project will take nearly 24 months to complete.

---

## Faculty Receive Promotions & Tenure

*Twenty-four faculty members will receive promotions effective Sept. 1, 1990. Tenure was granted to 25 individuals, including 11 of the promotions.*

Promoted to professor are (with simultaneous award of tenure indicated by an asterisk):

### School of Business and Public Administration

Dr. Guenther Kress\* (Public Administration)

### School of Education

Dr. Herbert Brunkhorst\* (Secondary & Vocational Education)

Dr. Margaret Cooney (Advanced Studies)

Dr. Esteban Diaz\* (Elementary & Bilingual Education)

Dr. Barbara Flores\* (Elementary & Bilingual Education)

Dr. Irvin Howard (Secondary & Vocational Education)

Dr. Sherry Howie\* (Secondary & Vocational Education)

Dr. Barbara Larrivee\* (Advanced Studies)

Dr. Gary Negin\* (Elementary & Bilingual Education)

Dr. Darleen Stoner (Advanced Studies)

### School of Humanities

Dr. Bertram Fairchild (English)

Dr. Harold Hellenbrand (English)

Dr. Susan Meisenhelder (English)

Dr. Daniel Whitaker (Foreign Languages)

### School of Natural Sciences

Dr. Joan Hallett (Mathematics)

The men and women advanced to associate professor rank are (tenure indicated by \*):

### School of Education

Dr. Ruth Norton\* (Student Teaching)

Dr. Kathy O'Brien\* (Advanced Studies)

### School of Humanities

Dr. J. Milton Clark (English)

Dr. Margaret Perry (Theatre Arts)

### School of Natural Sciences

Dr. Sandra Cross (Health Science)

Dr. Josephine Mendoza\* (Computer Science)

Dr. Javier Torner\* (Physics)

### School of Social and Behavioral Sciences

Dr. Randi Miller (Sociology)

Dr. Geraldine Stahly (Psychology)

Additional faculty members receiving tenure are:

### School of Business and Public Administration

Dr. Gabriel Bassiry (Management)

Dr. Donald Drost (Management)

Dr. Sue Greenfeld (Management)

### School of Education

Dr. J. Francisco Hidalgo (Secondary & Vocational Education)

Dr. Kathryn Reilly (Advanced Studies)

Dr. Stanley Swartz (Advanced Studies)

### School of Natural Sciences

Dr. Diane Butterworth (Health Science)

Dr. Sandra Clarkson (Mathematics)

Dr. Janice Layton (Nursing)

Dr. Peter Wetterlind (Computer Science)

### School of Social and Behavioral Sciences

Dr. Morley Glickin (Social Work)

Dr. Janet Kottke (Psychology)

Dr. Nancy Rose (Economics)

Dr. Frank Williams (Criminal Justice)

---

## (Commencement . . . continued from page 1)

Citing examples of several headline-making college graduates who yielded to temptation such as Michael Milken, Marion Barry, Jr., and Charles Keating, Jr., Garson encouraged the approximately 1,400 graduates in attendance to carefully consider their futures.

"As you make the choices that will shape your personal and professional futures, I hope you also will

make a commitment--a commitment to make only the choices that are consistent with high moral values and unimpeachable ethical standards. Happily, these are also the choices that will serve you best both personally and professionally. And, they are the choices that can begin to repair some dangerous cracks that have developed in our business and governmental structure."

## Contributions Being Accepted for 1989-90 Annual Fund

There's still time to make a contribution to Cal State's 1989-90 annual fund, remarks Pamela Langford, director of development. Gifts received by June 30 will be credited in the 1989-90 academic year and will be recognized in the honor roll of donors which appears in the university's annual report. This report will be published in the fall quarter and distributed to alumni, faculty, staff, area businesses and community friends.

"Gifts to the university help make a critical difference in the quality of our programs," notes Langford. "While state appropriations provide the basics for the university, private donations provide those enhancements which help distinguish Cal State as an outstanding institution. Your gift to the annual fund may be used towards scholarships, could provide state-of-the-art computer work stations, can assist in bringing outstanding speakers to campus, can help put books on our library shelves or can enrich a program of special interest to you," adds Langford. Over 2,500 individuals have already contributed nearly \$360,000 to this year's annual fund. Those interested in making a donation may contact Langford (University Relations) at Ext. 5006.

## Deborah Kravitz Joins Cal State

*Deborah Kravitz*

Riverside resident Deborah Kravitz recently joined the Cal State staff as the university's first full-time environmental health and safety officer. In this role, Kravitz will oversee Cal State's environmental health and safety programs to insure not only that the campus is safe, but also that the university complies with all federal, state and local laws regulating environmental and occupational safety and health.

One of her first projects will be to examine the area of hazardous waste management on campus. This will include

looking at waste streams being generated, appropriate methods of disposal and ways to minimize waste. She also will be involved with an education and training program on campus geared to those employees who work with hazardous materials on a daily basis.

Kravitz also will be focusing on exploring air quality compliance issues. She notes that the university is mandated by the South Coast Air Quality Management District to inventory and report nearly 400 chemicals which have been identified by the State of California as being toxic.

Other responsibilities will include working with campus programs exploring asbestos & PCB management, respiratory protection, hearing conservation, laboratory safety and medical surveillance.

Commenting on her new position, Kravitz says, "One of the biggest challenges will be to develop and implement a variety of projects for compliance with a minimum of

resources. The proliferation of legislation in recent years has increased the general public's awareness of environmental issues and has put pressure on the university to comply.

"The creation of this position shows an awareness and commitment by the university to ensure that we are being safe and are conducting business in an environmentally sound manner."

She brings a wealth of experience to the newly created position. Prior to joining Cal State, Kravitz was employed for five years as manager of Employee Health & Environmental Services at Rohr Industries in Riverside. From 1980-85, she served as an environmental health & safety engineer with Hughes Aircraft in Fullerton, CA. Kravitz holds a bachelor of science degree in Health Science & Safety from San Diego State University and a master's in Industrial Hygiene from the University of Southern California.

## New Phone Number for Coachella Valley Center

Due to the installation of two circuit lines from the Cal State campus to the Coachella Valley Center, it no longer is necessary to dial a long distance number when phoning the satellite campus. If calling from campus, simply dial 5450. When phoning from off campus, dial 880-5450.

It is now possible to FAX information to the Coachella Valley Center from campus FAX machines. Use the directions for local calling with two exceptions. It is not necessary to push "9" when advised and you need only to use the four digit extension, 5450, (not 880-5450) when faxing. Please note this information in your 1989-90 telephone directory.

## New Pub Hours

Wylie's Pub, located in the Student Union Building, is now open from 11 a.m.-1:30 p.m., Monday through Friday. Please note these new summer hours.

## Hispanic Faculty & Staff Association Seeks Volunteers for Fundraising Event

The Association of Hispanic Faculty & Staff (AHFS) is once again planning for its annual Fourth of July fireworks booth. Proceeds from this fundraising project will go toward scholarships for needy students enrolled at the university.

The booth will be located on the corner of Highland Avenue and Medical Center Drive in San Bernardino and will be open Thursday, June 28, through Wednesday, July 4. According to event organizers, individuals willing to volunteer their time are greatly needed. State law requires that fireworks booths have 24-hour supervision.

You need not be a member of AHFS in order to volunteer your service. Interested individuals may contact Marco Cota (Relations With High Schools) at Ext. 5188 or Ernesto Reza (Management) at Ext. 5745.

## Attention Softball Fans

Members of the campus community are invited to attend the final game of the spring Faculty & Staff Softball League slated for 5:30 p.m. Thursday, July 5. The game will be held on the field near the tennis courts. Cheer on your colleagues and join the fun at a post-game barbecue.

Over 70 players have joined the recently created league. The four teams and their sponsoring organizations include: Spirit, San Bernardino Spirit Baseball Club; Easy Money, San Bernardino County Central Credit Union; Reds, Jerseys Pizza; and Coyotes, Cal State Coyote Bookstore.

If you missed the excitement of the spring season, don't be discouraged. A summer league is forming and everyone is welcome. It's a great way to have summer fun. To R.S.V.P. for the July 5 barbecue or for more details on the league, contact Ted Krug (Financial Aid) at Ext. 5221 or Pamela Langford (University Relations) at Ext. 5006.

## Bookstore Notice

Please note that the campus Bookstore will be closed for inventory on Thursday, June 28, and on Friday, June 29.

## Director Announces Retirement

Dr. Richard T. Ackley, director of Cal State's National Security Studies (NSS) program, has announced his retirement effective this September. He will retire under the Faculty Early Retirement Program. In this regard, Ackley will serve the university as part-time acting director of the NSS program until a permanent replacement is hired.

His affiliation with Cal State began in 1972 when he joined the faculty as a part-time lecturer. In 1974, Ackley was named associate dean of academic administration, a position he held until 1983 when he decided to resume his career as full-time educator.

Among his most notable contributions to the university is the establishment of the NSS program which trains graduate students for careers in defense analysis and is only one of three such programs in the country.

"We started the NSS program in 1983 with no students, no faculty and no staff," he recalls. "Today the program has 140 participants at three teaching sites with 13 faculty members from four schools representing eight academic disciplines. We receive several calls each week, both nationally and internationally, inquiring about the program. We have really extended our outreach to both the military and aerospace industry. They have been very receptive and supportive of our program."

His service to the university also includes the creation of a

*Dr. Richard T. Ackley*

campus chapter of Phi Kappa Phi honor society and many years as chair of the Artist & Lecturers Committee, the forerunner of today's Intellectual Life & Visiting Scholars Committee.

In commenting on the rewards of his success, Ackley says his fondest memories of Cal State will be "the pleasant association I've had with the faculty and grad students, particularly seeing our students get responsible government positions which traditionally have gone to Ivy League graduates."

In addition to his part-time employment at Cal State, Ackley's retirement plans include conducting classified governmental research. "It's not rocking chair time yet. It's time to do something else, time to move on," he notes.

Prior to joining Cal State, Ackley served in the U.S. Navy for 20 years. He holds a Ph.D. in international relations from the University of Southern California and serves on the executive committee of the Inland Empire World Affairs Council.

# Student Services Picnic Combines Humor with Recognition

Distinctively clad in a familiar straw hat and white shirt, Vice President Peter Wilson (Student Services) welcomed nearly 100 members of the campus community to this year's Student Services Picnic. "Each year, we recognize those who make a big difference to students and student services personnel," he said while those attending enjoyed a complimentary lunch of deliciously prepared hot dogs and hamburgers created by some of the Inland Empire's most inspiring (and perspiring) chefs!

Two employees from outside the Student Services division were the first to receive

recognition for their outstanding contributions to the university. Associate Dean Steven Prouty (Advising Center) was presented with a Mexican sombrero in recognition of the many hats he wears on this campus. Accepting the humorously bestowed gift with style, Prouty said, "It's always a pleasure to help the student services group. I appreciate this honor and anytime I can be of assistance, just let me know." (Friday Bulletin sources report that his phone is still ringing).

Martha "The Enforcer" Kazlo (Counseling Center) was applauded for her efforts in enforcing campus policies

and her dedication to the mission of the university. "I appreciate the recognition," she said, "I really like all the folks here on campus."

Interdepartmental awards went to Rosalie Carpenter (Admissions) and Cecilia McCarron (Student Life). Retiree Mary Kehew (ASI) returned to campus for the event and was recognized for her service to Cal State.

While the awards presentation contained a great deal of humor and roasting, it was evident that the hard work and dedication of all the honorees are not taken lightly and that their day-to-day service to the campus

community is very much appreciated.

Former recipients of Student Service's Outstanding Employee Awards include: Khalil Daneshvar (Enrollment Services), fall 1988; Neal Farber (Health Center), fall 1989; Judy Haff (Enrollment Services), spring 1989; Joyce Kluck (Records), winter 1988; Lynn Moss (Career Development Center), winter 1988; Karen Newman (Student Services), fall 1988; Carolyn Rodriguez (Financial Aid), spring 1988; Cindy Shum (Enrollment Services), fall 1989; Greg Thomson (Student Life), spring 1989; and Dorinda Thurman (Health Center), spring 1988.

## Honorees at the recent student services picnic include:

Martha Kazlo (counseling center), top left; Rosalie Carpenter (Admissions), top right; Cecilia McCarron (Student Life), center; Steven Prouty (Advising Center), lower left; Mary Kehew (ASI), lower right.

## Professor Retires

*Dr. James D. Thomas*

Dr. James D. Thomas, professor of political science, will retire this fall as a participant of the Faculty Early Retirement Program. He joined the university in 1968 as associate dean of Academic Administration and was promoted to dean the following year. In 1983, Thomas was named associate vice president of Instructional Resources, a position he resigned from in 1984 in order to return full-time to the classroom.

Recalling his contributions as an administrator, Thomas says, "I enjoyed learning how to use the system to obtain the things the faculty needed such as more classroom space, more equipment and more resources. I enjoyed my administrative experience, especially in the early years. However, I always taught two courses each year. I really enjoyed that mix."

Discussing the significant role of political science for today's students, Thomas says, "For some students, political science prepares them for

citizenship. For many others, it also prepares them for careers in law or government. We have an excellent program here for these students."

Retirement plans for Thomas include woodworking and writing a book about the Supreme Court from 1937 to the present. "I will miss the campus, students and many of the people here, but I will be back," he says. "I have developed some friendships that I will cherish for the rest of my life."

As professor emeritus, Thomas will teach a graduate course in international law this fall at George Air Force Base and will return to campus to teach two classes during the winter quarter. He will maintain professional affiliations with the American Political Science Association and the Western Political Science Association.

## Commencement Thanks

The University Relations Division expresses appreciation to all members of the campus community who assisted with Commencement. Such a large scale event requires a lot of dedication and effort from many individuals. A special note of thanks is extended to members of the Physical Plant staff for the many hours they spent prior to, during and after the ceremony.

## Administrator Completes Ph.D. Requirements

The Office of Extended Education is pleased to announce that Assistant Dean Jan Jackson has completed all requirements for a Doctor of Philosophy in Education degree from Claremont Graduate School.

Jackson's dissertation, entitled "The Professionalization of the Teaching Field: The Role of Continuing Education," was based on a study of 2,500 K-12 teachers in San Bernardino and Riverside counties and subsequent interviews with an eight-member "Jury of Experts." Placed within a theoretical framework of Cyril Houle's list of 14 characteristics of professionalization (conceptual, performance and collective identity), the study's goal was to determine if there is a relationship between teachers' level of professionalization and their involvement or participation in formal continuing education activities.

## Marketing Student Receives Award

Senior Michelle Bloedorn combined her creative talents with knowledge gained at Cal State to win the 1989-90 Golden Eagle Award from Bank Advertising News. Her award was in the "Coordinated Campaign-Under \$50 Million" category.

Bloedorn, a Riverside County Credit Union employee, used a concept which encouraged VISA card holders to exchange these credit cards for Riverside Federal Credit Union's lower rate/no annual fee credit cards. The promotion was a success both financially and from an effective advertising standpoint.

"I'm excited and thrilled to have won the award," said Bloedorn. "The competition was fierce. I'm extremely excited."

## instructor Earns National Recognition

An enterprising social studies teacher, Alan Haskvitz, who serves Cal State as a part-time instructor of elementary & bilingual education, recently beat out thousands of other instructors to win two prestigious teaching awards.

In April, Reader's Digest named Haskvitz one of its 10 national "Heroes in Education," an award that carries a \$15,000 prize, \$10,000 of which goes to Suzanne Middle School in Walnut, CA, where he teaches eighth-grade students. More recently, Learning Magazine awarded its "Professional Best" leadership award to Haskvitz, an honor which was accompanied by a new Oldsmobile.

## *(Alumna . . . continued from page 1)*

"I am very honored to have been selected as the 1990 Distinguished Alumna," says Flowers. "Throughout the development of my career, I've often reflected on the excellent education I received at Cal State. I hope to continue to maintain a close association with the university and to witness the achievements that other alumni are able to realize in part from their association with Cal State."

Flowers is active with the Redlands Morning Kiwanis Club and holds professional affiliations with the California Engineering Foundation and American Society of Professional Women. In 1988-89, she assisted in Cal State's first Mentor Program for minority students as an Alumni Mentor.

## **Birth Announcement**

Congratulations are extended to Kathryn Miller (Admissions) and her husband on the June 9 birth of their son, Jonathan Paul Miller. Jonathan weighed 8 lbs., 5 oz. Father Ted Miller is a graduate of Cal State. Congratulations also are extended to Jonathan's grandmother, Pat Quanstrom (Accounting) and his aunt, Paula Ammerman (Bursar).

## **Students Receive Art Awards**

During the recent opening of the "20th Student Art Show," several students were recognized for their artistic talents. Six students were recognized by the San Bernardino Art Association. An Award of Excellence went to Roberta Thole of Redlands for her "Untitled" painting. The association also presented five Certificates of Merit to the following students: James Osgood of Angelus Oaks for a sculpture named "My Duration"; Kyong Cha Hubatka (aka Kim) of Loma Linda for a raku vase entitled "Transcendental Figures"; Randal McCoy of San Bernardino for an "Untitled" painting; David Lawson of La Quinta for an "Untitled" lamp table; and Lorena Iniguez of Indio for a "Golden Gate Celebration" poster. Additionally, the Art Department presented the Joseph Thomas Craftsman Award in Woodworking to Warren McElroy of Barstow.

In addition to these awards, a \$500 scholarship in painting and drawing was awarded to Juan Ayllon by the Antique and Fine Art Association of San Bernardino.

The show remains on display in the University Art Gallery through July 20. Gallery hours are 9 a.m.-noon and 1-4 p.m., Monday-Friday.

## **Grad Student Wins Research Competition**

Redlands resident Patricia Schechter Lough recently brought recognition to the campus as a winner in this spring's CSU Student Research Competition in the Behavioral & Clinical Sciences Division.

Findings from her research project entitled "Resolution of Medicolegal Issues Regarding the Use of Urine Samples for Alcohol Testing," already are being implemented by members of the San Bernardino County Sheriff's Crime Lab where Lough has been employed as a criminalist for the past eight years.

Commenting on the award, Lough says, "I think it's very good for the Biology Department. This was the first time one of their students had entered the competition. It shows that there is active, viable research being conducted here on our campus." Lough holds a bachelor of science degree in biology from Cal State and was awarded a master's degree in science last Saturday.

## **Malathion Sprayings Continue**

The Cal State campus will be included in three more malathion sprayings according to the California Department of Food & Agriculture. Sprayings are scheduled for Tuesday evenings on June 19, June 26 and July 2 beginning at approximately 9-10 p.m.

Additional information is available by contacting the Department of Food & Agriculture at (800) 225-1346 during daily business hours; during the evening or on weekends, call the department at (800) 542-6668. This second number is a daily up-dated recording announcing specific spray locations and possible schedule changes.

# COMMUNITY SERVICE

**Dr. Kenneth Thygeron** (Accounting & Finance) addressed the university's Financial Management Association on May 24. His topic was "The Future of Financial Institutions."

**Craig Henderson** (Student Services) was selected as Outstanding Organization Advisor for 1989-90 by the Student Life Office at the annual Spring Awards Luncheon on June 1. He has been an advisor of the Gay and Lesbian Union since 1977.

**Dr. Billie Blair** (Education) addressed the Alpha Iota Chapter of Phi Lambda Theta in Claremont on June 3. Her talk was entitled "Leadership in Education."

**Dr. David Bellis** (Public Administration) presented "Stormy Waters Ahead: Political Turbulence in the Inland Empire" at the June 7 meeting of the San Bernardino Host Lions Club.

**Stephanie Keyes** (Personnel) spoke to kindergarten-fifth grade students on "Planning Careers" at Ramona Alessandro Elementary School in San Bernardino on June 8.

**James Scanlon** (Computer Center) presented a program on "Computing Careers" to fifth-grade students at Belvedere Elementary School on June 8 as part of a Career Day celebration.

**Twillea Carthen** (Personnel) visited Emerton Elementary School on June 8. She presented "Career Opportunities: Planning Careers" to fourth-, fifth- and sixth-grade classes. On May 9, Carthen discussed "Employment Tips" with students at Perris Lake High School in Riverside.

**Dr. C.E. Taple Rohm, Jr.** (Information & Decision Sciences) spoke on "America: Learning to Adapt to the Change" at the Breakfast Rotary on June 14.

**Dr. Alexander Sokoloff** (Biology) presented "Why Not Eat Insects" on June 19 to the Kiwanis Club of East San Bernardino.

## Personnel

### New employees, Full-time, permanent

**Mario Baeza**  
Student Services Professional  
II  
Educational Opportunity

## Friday, June 22

### Art Show.

20th Student Art Show featuring works by Cal State students continues on display through July 20 in the University Art Gallery located in the Visual Arts Building.

Gallery hours are 9 a.m.-noon & 1-4 p.m.

Free.

### Enrichment Program.

"Helping Your Children Deal with Divorce," by Dr. Edward Teyber (Psychology).

Noon-1 p.m., Eucalyptus Room, Lower Commons.

Free.

## Monday, June 25

### Basketball Camp.

Second session of the 1990 Coyote Basketball Camp begins today.

For registration fees & information, contact Gary Schwartz (Athletics) at Ext. 5013 or phone (714) 880-3333.

## Tuesday, June 26

### Workshop.

"How to Get and Stay Organized at Work."

1:30-4:30 p.m., Sycamore Room, Lower Commons.

For registration fee & information, contact the

Office of Extended Education at Ext. 5979.

## Wednesday, July 4

**Independence Day.**  
University closed.

## Thursday, July 5

**Faculty & Staff  
Baseball Game &  
Barbecue.**

5:30 p.m., field near the Tennis Courts.

To R.S.V.P., contact Ted Krug (financial Aid) at ext. 5221 or Pamela Langford (University Relations) at ext. 5001

## Wednesday, July 11

### Workshop.

"New Ways to Increase Quality & Teamwork at Work."

1:30-4:30 p.m., Room 211, Pfau Library.

For registration fee & information, contact the Office of Extended Education at Ext. 5979.

### Musical Entertainment.

The GTE Connection kicks off the Sixth Annual Summer Entertainment Series featuring a review of popular hits from today and yesterday performed by GTE employees.

7 p.m., Lower Commons Patio. Free.

## EMPLOYMENT OPPORTUNITIES
